Professor Hadi Akbarzadeh
President
Physics Society of Iran
Isfahan University of Technology
Isfahan, 8415683111, IRAN

Dear Professor Akbarzadeh,

As President of the American Physical Society (APS), I would like to convey the Society's condolences to the Iranian scientific community on the loss of physicist Masoud Alimohammadi. We were deeply saddened to learn of his death.

Professor Alimohammadi was an esteemed physicist who served as a delegate of Iran on the Council of the SESAME facility (the Synchrotron-light for Experimental Science and Applications in the Middle East). His participation in the Council meetings, along with Iran's dedication to SESAME and its goals of international scientific collaboration, have been appreciated by physicists worldwide who have shared in this endeavor.

We express our sympathy to the scientific community in Iran and to Professor Alimohammadi's family. His death is a loss to the international physics community.

Sincerely,

A handwritten signature in black ink that reads "Curtis G. Callan, Jr." in a cursive style.

Curtis G. Callan, Jr.
President
