Journal Papers

(2015: Elsevier) M. Tajik, N. Ghal-Eh, Comparison of light transport-incorporated MCNPX and FLUKA codes in generating organic scintillators responses to neutrons and gamma rays, Nuclear Instruments and Methods, in press.

(2013: Elsevier) S. Zare, N. Ghal-Eh, E. Bayat, On timing response improvement of an NE213 scintillator attached to two PMTs, Radiation Physics and Chemistry, 90, 6–10.

(2013: Oxford) P. Ghorbani, E. Bayat, N. Ghal-Eh, A comparison study on three different radiation detectors used for liquid levelmetry, Radiation Protection Dosimetry, 156, 109-117.

(2012: Oxford) M. Rasoulinejad, R. Izadi Najafabadi, N. Ghal-Eh, A simple well-logging tool using boron-lined sodium iodide scintillators and an Am-Be neutron source, Radiation Protection Dosimetry, 151, 580-585

(2011: Elsevier) N. Ghal-Eh, Light transport contribution to the timing characteristics of scintillation detectors, Radiation Physics and Chemistry, 80, 365-368.

Some Conference Papers

(2015) M. Kalaei, N. Ghal-Eh, A. Mohammadi, Modelling the response functions and neutron spectrum unfolding of a Bonner sphere spectrometer with lithium iodide central detector exposed to an Am-Be source, Iranian Nuclear Physics Conference, Isfahan, Iran.

(2014) M. Azizpour, E. A. Amirabadi, N. Ghal-Eh, H. Rouhi, Design and construction of composite shielding materials for gamma rays, Annual Physics Conference, Zahedan, Iran.

(2014) M. Fathi, N. Ghal-Eh, D. Rezaei Ochbolagh, Simulation and experimental studies on detector geometry and gamma ray energy on the response of lithium iodide scintillator, Iranian Nuclear Physics Conference, Guilan, Iran.

(2014) P. Ahmadi, N. Ghal-Eh, V. Doost Mohammad, Qualitative and quantitative material analyses using data library of neutron activation based on neural network and least-squares methods, Iranian Nuclear Physics Conference, Guilan, Iran.

(2014) H. Doostizadeh, N. Ghal-Eh, Z. Hazami, V. Doost Mohammad, Simulation and experimental studies on Compton suppression for use in suitable geometry determination in manganese bath measurements, Iranian Nuclear Physics Conference, Guilan, Iran.

(2013) M. Salimi, E. Asadi Amirabadi, N. Ghal-Eh, G.R. Etaati, Design and fabrication of new-generation concretes used for radiation shielding in neutron-gamma mixed field, Annual Physics Conference, Birjand, Iran.

(2013) S. Zare, N. Ghal-Eh, E. Bayat, Study on different factors affecting the neutron-gamma discrimination with a scintillator attached to two PMTs, Iranian Nuclear Physics Conference, Mashhad, Iran.

(2012) N. Ghal-Eh, Neutron capture cross-section of 115In using a combination use of Monte Carlo simulation and experimental data, 1st National Conference on Computational Science, Damghan, Iran.

(2012) M. Alyannehzadi, N. Ghal-Eh, Simulation vs. experimental studies on light transport contribution to time response of scintillation detectors, Annual Physics Conference, Yazd, Iran.

(2012) A. Shahri, N. Ghal-Eh, G.R. Etaati, Modelling boron-lined proportional counter response to Am-Be combined neutron-gamma source, Annual Physics Conference, Yazd, Iran.

(2012) M. Rasoulinejad, R. Izadi-Najafabadi, N. Ghal-Eh, Experimental vs. simulation studies on a simple well-logging tool, Iranian Nuclear Physics Conference, Yazd, Iran.

(2012) Z. Binaei Bash, N. Ghal-Eh, E. Bayat, G.R. Etaati, Studies on lightguide length influence on timing resolution of scintillation detectors, Iranian Nuclear Physics Conference, Yazd, Iran.

(2012) M. Tajik, N. Ghal-Eh, H. Afarideh, G.R. Etaati, A comparison on gamma deposition energy calculation in NE213 plastic scintillator made by MCNP4C and FLUKA codes, Iranian Nuclear Physics Conference, Yazd, Iran.

(2012) H. Ghaahremanlou, N. Ghal-Eh, G.R. Etaati, Modelling NaI(Tl) response to gamma rays using a hybide use of MCNP's PTRAC and PHOTRACK codes, Iranian Nuclear Physics Conference, Yazd, Iran.

(2009) M. Mottaghian, R. Koohi-Fayegh, N. Ghal-Eh, G. R. Etaati, Studies on non-uniform response of photocathodes used with scintillation detectors, Iranian Nuclear Physics Conference, Gorgan, Iran.

(2008) N. Ghal-Eh, Light transport incorporation to a scintillator response function generating code, Iranian Nuclear Physics Conference, Yazd, Iran.

(2001) M. F. Rahimi, N. Ghal-Eh, Non-relativistic electron transport in metals: a Monte Carlo approach, Europhysics Conference on Computational Physics, Aachen, Germany.

(2013) (Writing) N. Ghal-Eh, Modelling photon transport in scintillators, Lambert Publishing (available through www.amazon.com)

(2012) (Translation to Persian) Translated by N. Ghal-Eh and D. Ajloo and written by Peter Gans, Data fitting in the chemical sciences.
